We caught up with **Perc** (aka Ali Wells) at Winter Music Conference Miami in March where he was playing a number of venues (his "Perc vs Sleaze Trax" party was one of my highlights of WMC)

He's a busy guy, releasing tracks on his own label -Perctrax and also working with Chris Liebings CLR imprint. He's in high demand as a remixer too working with artists like Trentmoller, James Holden and Belfast producer Phil Kieran.

for more info go to: <http://myspace.com/perctrax> and <http://www.perctrax.com>

Check out his interview and mix below and watch out for a special guest mix for CGI/CGNY Radio coming soon!!
